Art Unit: 2834

Applicant must cancel withdrawn claims 13-20 or take other appropriate.

The examiner agrees with applicants that: The elastic electric contact strips are integrally formed with the fiber cover layer. This combination of woven elastic for the contact strip with a fiber cover layer provides a level of elasticity that is not suggested in the prior art. The prior art teachings do not extend beyond combining fiber cover layers integrally formed with non-elastic electric contact strips".

Thus claims 1-12 and 21-34 are allowed.
